

Carlos Aurelio Briceño Gomez

Full Stack Software Developer

📍 Colombia | ✉️ aurel.gomez@outlook.com | 📞 +57 3160592267 | 🌐 [LinkedIn](#) – [GitHub](#)

Professional Summary

Full Stack Developer with over 5 years of experience building scalable, high-performance web applications across both backend and frontend. Specialized in **JavaScript and TypeScript**, using modern frameworks and libraries such as **React, NestJS, and Express** to develop dynamic user interfaces and robust APIs.

I also have experience with other languages, including **Go** (Fiber, Gin) and **Python** (FastAPI), applying clean architecture principles, microservices, and software design best practices.

Proficient in **SQL databases (SQL Server, MySQL, PostgreSQL)** and **NoSQL databases (MongoDB)**, as well as infrastructure and deployment tools such as **Docker, Kubernetes, and AWS**, ensuring stable, secure, and automated production environments.

Professional Experience

Imaginamos

Full Stack Developer | February 2022 - Present | Remote, Colombia

Development and maintenance of B2B/B2C platforms and cybersecurity applications across frontend and backend.

Wise: Development of user interfaces with **React** and **NestJS** APIs with data persistence in **PostgreSQL**.

NetData: Development of **NestJS** services for ticket management and cybersecurity workflows.

Equirent: Development of services for vehicle fleet management and maintenance.

Fastcode

Junior Full-Stack Developer | July 2021 - January 2022 | Remote, Colombia

Development of early-stage web projects, creating dynamic interfaces with **React** components and backend services with **ExpressJS**, using **MySQL** for data persistence.
